

## English

Continue reading a range of texts with your child, on a daily basis, talking about what has been read.

Look out for examples of adverts which are aimed at children and families and discuss the persuasive techniques used in them.

Research facts about the ways in which animals are suited to their environment using websites and books.

Continue practising and applying spellings from previous weeks.

## Mathematics

Continue practising number bonds and times table facts. (Children in Year 4 are expected to know up to 12x12 by the end of the academic year.)

Practice telling the time with your children throughout the day using both digital, analogue and Roman numeral clocks.

Use money to add amounts when shopping and find change.

## Science

**Food Chains and Classifying Living Things**  
Look out for different types of living things when out and about. Try to name/find out facts about plants and animals you see.

**Digestive System and Teeth**  
Develop children's awareness of the food they eat by encouraging them to cook with you, discuss food groups and a balanced diet.

## Ways to Help at Home

### **Kestrels** **Summer Term 2018** **Cities of the UK**

## PSHE

Introduce the terms adolescence and puberty with your child in simple terms, discussing the changes that can happen as they grow up.

## R.E

Visit different religious buildings and talk to the religious leaders.

Introduce the term faith and allow children to share their own values and beliefs.

## Music

Get your child to identify the different technological musical compositions around them and the purpose of these pieces of music, such as within adverts, ringtones, jingles etc.

## P.E

Encourage your child to be as active as possible. Children should be aiming to be active for 1 hours a day, but only 30 minutes of this is provided within school.

## Geography

Look at a map with your child and locate places you have visited together.

Discuss similarities and differences between places they have visited.

## Computing

Discuss how to be safe when using the internet.

Help children develop their research skills by discussing together possible research questions and selecting relevant parts of text (which children will be able to understand).

## Art and Design

Provide a range of sketching materials and allow your child to sketch when out and about. Look for examples of art you encounter when out and about.

## Design and Technology

Encourage children to be creative and try out ideas for making books, pop up cards or other paper craft of their own.

## Languages

Encourage your child to talk in different languages, using greetings and simple phrases as appropriate.
