Spring term projects 2025

Driver project 	Misty Mountain, Winding River	
Science	States of Matter	Grouping and Classifying
Art and design	Vista	Animal
Design and technology	Functional and Fancy Fabric	
Geography	Covered in main project	

Misty Mountain, Winding River

This project teaches children about the characteristics and features of rivers and mountain ranges around the world, including a detailed exploration of the ecosystems and processes that shape them and the land around them.

States of Matter

This project teaches children about solids, liquids and gases and their characteristic properties. They observe how materials change state as they are heated and cooled, and learn key terminology associated with these processes.

Grouping and Classifying

This project teaches children about grouping living things, known as classification. They study the animal and plant kingdoms and use and create classification keys to identify living things.

Vista

This project teaches children about the techniques that artists use when composing landscape images, such as colour and atmosphere.

Animal

This project teaches children about the historical and cultural portrayal of animals in art. They study the visual qualities of animals through sketching, printmaking and clay modelling.

Functional and Fancy Fabric

This project teaches children about home furnishings and the significant designer William Morris. They learn techniques for decorating fabric, including block printing, hemming and embroidery and use them to design and make a fabric sample.
